Response to Amendment After Final

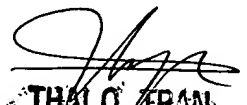

1. Applicant's amendment after final now includes the further limitations in claims 1-14 of specifying that the apparatus and method are directed towards "P" picture coding control through the use of the "P" header data. Since this is the first instance in which "P" predictive coding has been specifically recited in claims 1-14, entry of the Amendment After Final would require further raise new issues that would require further search and consideration by the Examiner. Accordingly, the Amendment After Final will not be entered.

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anand Rao whose telephone number is (703) 305-4813.
